

## **REMARKS**

Claims 1-19 are currently pending in this application. Claims 5-19 have been withdrawn in view of the Examiner's September 20, 2005 Restriction Requirement. No claim has been amended herein.

The Examiner rejected claims 1-4 under 35 U.S.C. § 102(e) as being anticipated by U.S. Patent Pub. No. 2004/0135941 ("Nam et al.") for the reasons set forth on pages 2-3 of the office action. Applicants respectfully traverse this rejection for at least the reasons presented below.

Nam et al. appears to qualify as prior art, if at all, only under 35 U.S.C. §102(e) based its U.S. filing date of November 26, 2003. The current application claims priority under 35 U.S.C. § 119 from Taiwanese Application No. 091138214, which was filed on December 27, 2002, which predates the U.S. filing date of Nam et al. Applicants submit herewith an English translation of the Taiwanese priority application and translator's statement of accuracy. This submission overcomes the effective date of Nam et al., so that Nam et al. is not available as a § 102(e) reference against the current application. Applicants therefore request that the Examiner withdraw the rejection based on Nam et al.

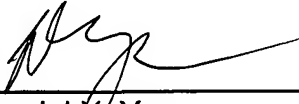

In view of the foregoing remarks, Applicants respectfully request reconsideration and reexamination of this application and the timely allowance of claims 1-4.

Please grant any extensions of time required to enter this response and charge any additional required fees to our deposit account 06-0916.

Respectfully submitted,

FINNEGAN, HENDERSON, FARABOW,
